Gauging Trowel

Mixing cement paste

IS 10086

Steel gauging trowel for mixing cement paste and mortar in consistency and setting time tests, weighing 210 ± 10 g.

Request a quote | View online

Description

Used to mix and gauge cement paste and mortar by hand for the consistency, setting time and soundness tests. It weighs 210 ± 10 g.

The blade is mild steel or stainless steel, at least 1.5 mm thick, on a wooden or ergonomic handle. It comes in a 195 mm blade, or in shorter 100 to 150 mm blades with straight or rounded edges.

Supplied ready for use with operating manual and test certificate. Contact us for configuration options, accessories and calibration services.
